ABSTRACT

This document contains student enrollment data for the second term (winter quarter/spring semester) of 1976-77 for Illinois public community colleges. Enrollment counts are based on the number of students attending the various public community colleges on the tenth day of the second term. Total headcount enrollment was 316,899, an increase of 1% from the previous year but a decrease of 2.7% from the first (fall) term. Full-time equivalent enrollment was 150,738, a decrease of 1% from the previous year and a decrease of 2.1% from the first term. Of the total second term enrollment: freshmen students comprised 48.2%, sophomores 18.7%, and unclassified students 33.1%; females comprised 50.9%; in-district students comprised 94.5%; day attendance accounted for 63.9%, evening attendance for 34.7%, and weekend attendance for 1.4%; and on-campus enrollment accounted for 80.5%. Baccalaureate parallel enrollments were down, while those in occupational and other areas were up. Seventeen tables display enrollment data by college, type of program, location of instructional program, and sex. (JDS)

Research -- April, 1977

HIGHLIGHTS

1. Community Colleges of Illinois have experienced a small increase since last year in headcount student enrollment during the second term of 1976-77 (winter quarter for colleges on quarter system or spring semester for colleges on semester system), with a total count of 316,899 students enrolled in instructional program areas. This is an increase of 1% from the second term of 1975-76, but a decrease of 2.7% from the fall 1976 term. (For details, see page 3)

2. FTE Student enrollment totaled 150,738 for the winter/spring term of 1976-77, a decrease of 1% from the winter/spring 1975-76 term and a decrease of 2.1% from the fall 1976 term. (For details, see page 5)

3. An analysis of enrollments by instructional area shows that the baccalaureate area decreased by 4936, the occupational area increased by 532, while all other areas increased by 8658 students from a year earlier. (See page 7 for details)

4. Freshmen students accounted for 48.2% of the total second term 1976-77 enrollment with sophomore students accounting for 18.7% and unclassified students accounting for 33.1%. (See page 9 for details)

5. The total number of female students (161,100 - 50.9%) outnumbered the total number of male students (155,699 - 49.1%)during the second term FY77. (See page 10 and 11 for details)

6. In-district students composed 94.5% of the total student enrollment in the community colleges of Illinois with 5.3% of the students being from Illinois but out-of-district and only 0.2% of the students enrolled are from out-of state. (See page 12 for details)

7. Day attendance accounted for 63.9%, evening attendance for 34.7% and weekend attendance (Saturday/Sunday) for 1.4% of the total student enrollment during winter-spring term 1976-77, which remained relatively constant with last year's figure. (See details on page 14)

8. Enrollment at on-campus locations accounted for 80.5% of the total winter/spring term 1976-77 enrollment with enrollment at in-district off-campus locations accounting for 19.0% of the total, and out-of-district locations accounting for only 0.5% of the total enrollment. (See page 16 for details)

INTRODUCTION

Student enrollment data for the second term 1976-77 (winter quarter for colleges on quarter system and spring semester for colleges on semester system) is based on 10th day (end of registration) data. This type of enrollment data is considered to be snapshot enrollment. Snapshot enrollment counts reflect the number of students attending a given institution on a particular date. Usually, the second term enrollment at institutions of higher education are somewhat lower than the fall term enrollment for the same year. This has generally been the case in Illinois public community colleges as well.

The second term enrollments are very important because when combined with the fall term enrollments, they provide a very good indication of the total enrollments generated by each college for the entire year. This data is significant to each college as well as to the ICCB because the annual enrollments determine the amount of state funding that public community colleges receive.

COMPARISON OF SECOND TERM FY1977 HEADCOUNT ENROLLMENTS WITH SECOND TERM FY1976 ENROLLMENTS

Table 1 on the opposite page shows the headcount enrollment data for second term FY1977 compared to the headcount enrollment data for the second term of last year (FY1976) for each community college. It must be pointed out that the colleges that are on the quarter calendar system have reported data for the winter quarter, while colleges on the semester system report data for the spring semester. In several cases, the winter quarter enrollment is lower than the spring quarter. Although the statewide average shows an increase of 4254 students (1%) from a year earlier, twenty-eight colleges have experienced enrollment decreases from a year ago while twenty-one colleges have experienced an enrollment increase.

COMPARISON OF SECOND TERM FY1977 FTE ENROLLMENTS WITH SECOND TERM FY1976 ENROLLMENTS

Table 3 on the opposite page shows the FTE enrollment by community college for the second term FY1976 and the second term FY1977. The statewide totals show that the FTE enrollment decreased by 2026 FTE students from the second term FY1976. In analyzing the FTE Enrollment Report in Table 3 on the opposite page, thirty-three of the community colleges had enrollment decreases from a year earlier. This decrease represents a -1% change from last year. Table 2 below shows a summary of the statewide FTE enrollments reported for the second term FY1977 compared with the fall 1976 term and the second term of FY1976.

TABLE 2

SECOND TERM STUDENT HEADCOUNT FTE ENROLLMENT BY INSTRUCTIONAL PROGRAM AREAS

Table 5 on the opposite page shows headcount and FTE enrollment in each of the public community colleges of Illinois by instructional program area. Table 4 below, shows a comparison of the enrollment data by program area showing the state summaries. This table reveals that the undeclared area has shown the largest growth from the winter quarter/spring semester 1975-76 to the winter quarter/spring semester 1976-77 (plus 47.6%). All of the other instructional areas showed a very positive growth rate from a year earlier with the exception of the baccalaureate area which showed a decline of 4.7%. A number of community colleges code most of the adult continuing education enrollments with an undeclared curriculum. Hence, an increase in the number of undeclared majors indicates an increase in continuing education enrollments.

TABLE 4

COMPARISON OF WINTER QUARTER/SPRING SEMESTER 1976-77 HEADCOUNT ENROLLMENT WITH WINTER QUARTER/SPRING SEMESTER 1975-76 ENROLLMENT IN INSTRUCTIONAL PROGRAMS

	Winter Quarter Spring Sem. 1975-76	Winter Quarter Spring Sem. 1976-77	Change From Winter Quarter/Spring Sem. 1975-76

*HC=Headcount
**FTE=Full-time Equivalent Students which is 15 student hours.

SECOND TERM ENROLLMENT IN INSTRUCTIONAL PROGRAMS BY ACADEMIC CLASSIFICATION

Table 7 on the opposite page shows the headcount and FTE student enrollment in the instructional program areas distributed by academic classification for each of the public community colleges of Illinois. In observing the relatively large proportion of freshmen, one must note that the community colleges enroll many students in programs of one year or less in length. In addition, many part-time continuing education students who take only one course per term are also included in the freshmen count if they have a declared major. The unclassified category is utilized primarily for part-time continuing education students who do not have a declared major.

Table 6 is a summary of the instructional enrollment by academic classification. This table shows the percentage of students in each of the classifications both by Headcount and FTE enrollment.

TABLE 6

SUMMARY OF ENROLLMENT IN INSTRUCTIONAL PROGRAMS BY ACADEMIC CLASSIFICATION

SECOND TERM ENROLLMENT IN INSTRUCTIONAL PROGRAM AREAS BY SEX AND TYPE

Table 9 on the opposite page shows the student enrollment data for the instructional program areas distributed by sex and full-time and part-time students for each community college. At the present time, there is a great concern for providing ample educational opportunities for women students. Many community colleges are exploring additional ways of serving the educational needs of women. As a whole, the community colleges in Illinois enroll more women than men. A summary of the student enrollment distributed by sex is shown below in Table 8. This table shows that although the community colleges enroll more men as full-time students, they enroll more women as part-time students. The total number of male students reported was 155,699 (49.1%) while the total number of female students reported was 161,100 (50.9%).

In comparing the number of part-time and full-time students, the tables show 94,393 full-time students (29.8% of the total) and 222,406 part-time students (70.2% of the total).

TABLE 8

SUMMARY OF STUDENT ENROLLMENT IN INSTRUCTIONAL PROGRAM AREAS
DISTRIBUTED BY SEX AND FULL-TIME AND PART-TIME STUDENTS

SECOND TERM ENROLLMENTS IN INSTRUCTIONAL PROGRAM AREAS BY RESIDENCY OF STUDENT

Table 11 on the opposite page shows the headcount and FTE enrollment in the instructional program areas by type of residency for each of the public community colleges of Illinois. Out-of-district enrollment includes both students from other community college districts and students from high school districts that are not a part of a community college district. Out-of-district students attend on either a chargeback basis or else pay their own additional out-of-district tuition. Both in-district students and out-of-district students are from Illinois. Less than one percent (0.2%) of the students enrolled in Illinois public community colleges are from out-of-state. The large majority of students (94.5%) are residents of the community college district that they attend.

Table 10 below shows a summary of the enrollment data by residency.

TABLE 10

SUMMARY OF FY1977 SECOND TERM ENROLLMENTS IN INSTRUCTIONAL PROGRAMS BY RESIDENCY

SECOND TERM FY1977 FTE ENROLLMENTS IN INSTRUCTIONAL PROGRAM AREAS BY TIME OF ATTENDANCE

Table 13 on the following page shows the FTE enrollment in the instructional program areas for the winter quarter/spring semester of FY1977 distributed by type of attendance for each of the public community colleges in Illinois. The DAY FTE enrollment was additionally split into ON-CAMPUS and NOT-ON-CAMPUS because the DAY ON-CAMPUS FTE enrollment is presently utilized for capital development considerations. The NOT ON-CAMPUS category includes OFF-CAMPUS, EXTENSION and HOMESTUDY.

Table 12 below shows a summary of the FTE enrollment in the instructional program areas distributed by type of attendance. This analysis shows that 63.9% of the enrollment is generated in daytime hours with 34.7% being produced in the evenings. The distribution for day and evening enrollment has remained relatively the same for the last two years.

TABLE 12

SUMMARY OF FTE ENROLLMENTS IN THE INSTRUCTIONAL PROGRAM AREAS DISTRIBUTED BY TIME OF ATTENDANCE

	FTE ENROLLMENTS	% OF TOTAL
Day On-Campus	85,805	56.9%
Day Not On-Campus	10,499	7.0%
Day TOTAL	96,304	63.9%
Evening	52,266	34.7%
Saturday/Sunday	2,168	1.4%
TOTAL	150,738	100.0%

SECOND TERM FTE ENROLLMENT IN INSTRUCTIONAL PROGRAM AREAS BY LOCATION

Table 15 on the opposite page shows the FTE enrollment in instructional program areas distributed by location of attendance for each of the public community colleges of Illinois. On-Campus attendance represents courses being offered in facilities which are a part of the college campus. Off-campus attendance is enrollment in courses which are offered at the various high schools and other extension centers within the district. Extension attendance is in courses which are offered at locations outside the college districts.

Table 14 below shows a summary of student FTE enrollment in instructional program areas by location.

TABLE 14

SUMMARY OF STUDENT FTE ENROLLMENTS IN INSTRUCTIONAL PROGRAM AREAS BY LOCATION IN ILLINOIS PUBLIC COMMUNITY COLLEGES

	NUMBER	PERCENT OF TOTAL
On-Campus	121,318	80.5%
Off-Campus	28,725	19.0%
Extension/Homestudy	695	.5%

SECOND TERM FY77 10TH DAY APPORTIONMENT FTE BY TYPE OF COURSE

Table 17 on the next page shows the winter quarter/spring semester FY77 10th day apportionment FTE enrollment by the eight funding categories for each of the public community colleges in Illinois. The distribution into the various categories was based on course enrollments. Of the 149,674 FTE students reported, the baccalaureate and general academic category generated the greatest enrollment 74,419 (49.7%) of the total.

Table 16 below shows a summary of the actual second term FY77 apportionment FTE enrollment by type of course.

TABLE 16

SUMMARY OF ACTUAL SECOND TERM FY77 10TH DAY APPORTIONMENT FTE BY TYPE OF COURSE

TYPE OF COURSE	FTE ENROLLMENT	% OF TOTAL
